How are HELOC payments calculated?

Typically, HELOC payments are calculated based on the interest rate, outstanding balance, amortization term and interest calculation methods as described in your HELOC agreement. HELOCs typically have two stages: a draw period and a repayment period. During the draw period, the minimum monthly payment may be equal to the interest that accrued that month. Typically, during the repayment period, the monthly payment amount is calculated based on both principal and interest.

HELOC terms vary. To review the payment calculation for your HELOC, refer to your HELOC agreement or log into our website or app and to *My Loan* to view your account details.
